Dear Mr. Rothwell:

As you know, the Richardson Flat Site in Summit County, Utah, is currently undergoing the listing process under the revised Hazard Ranking Scoring System. Recently, United Park City Mines has indicated an interest in pursuing expedited clean-up at this site, which can be conducted under the Superfund Accelerated Clean-up Model (SACM).

If you would like to explore SACM or other possible clean-up options, or you would like to set up a meeting to further discuss this issue, please feel free to contact Muhammad Slam at 536-4100.

Sincerely,

Kent P. Gray, Director
